ANNALS OF HUMAN BIOLOGY, 1989, VOL. 16, NO. 6, 569–570

SUBJECT INDEX

Adolescent growth spurt of height and childhood nutritional background; an 18-year study of rural Indian boys 289
Adult body dimensions and economic conditions in the Mahishyas of Howrah district, West Bengal 529
Age at first birth and age at menarche 463
Age at menarche and age at first birth in an undernourished population 463
Age at menarche, distribution in Turin girls 549
Age of menarche and height and weight during secular shift in growth of Japanese children; lack of linkage 429
Age, behaviour and heart-rate variation in elderly women 265
Age-dependent changes in morphometric and biochemical traits 237
Ageing of human diploid fibroblasts: mitochondrial antigenic structure and enzyme activity 259
Ageing, demographic aspects 185
Amenorrhea and breast-feeding post-partum in Serere women, Senegal 311
Anthropometric differences among the Yanadis 449
Anthropometrical traits, genetic variance in fluctuating assymetry 121
Australian Aborigines growth from birth to 2 years 421

Biochemical and morphometric traits, age-dependent changes 237
Biochemical and population genetics of human mitochondrial malic enzyme 369
Birth dimensions of Melanesians and Indian Fijians: maternal and socioeconomic factors 25
Blood pressure measurements and family resemblance 99
Body circumferences as alternatives to skinfold measures of body fat in children 495
Body mass index, weight and height, effects of social class and social mobility 1

Childhood nutritional background and adolescent growth spurt; an 18-year study of rural Indian boys ..289
Complement polymorphism in Greece 443
Correlations (male and female) for taster (P.T.C.) phenotypes and rate of adolescent development 131

Demographic aspects of ageing 185
Development of adolescents, taster (P.T.C.) phenotypes and sex correlations 131

Early maturation effects on foetal growth 335
Elderly women: heart-rate variation, age and behaviour 265
Enzyme activity and mitochondrial antigenic structure in ageing human diploid fibroblasts 259

Fat distribution, measurement using body circumferences instead of skinfolds 495
Fibroblasts, human diploid: mitochondrial antigenic structure and enzyme activity in ageing 259
Fibroblasts, human skin: effect of sex chromosome aneuploidy 9
Fluctuating assymetry and genetic variance in anthropometrical traits 121
Foetal growth, effects of early maturation 335

Gene frequencies of Gc and PGM subtypes 169
Gene frequencies of red cell enzymes and haptoglobin in the Basque region of Leon 147
Genetic differentiation in groups of fishermen of the Eastern Coast, India 333
Genetic variance in fluctuating assymetry of anthropometrical traits 121
Group specific component (Gc) and PGM subtypes gene frequences 169
Group specific component (Gc) subtypes in several East Asian Mongoloid populations 53
Growth of Australian Aborigines from birth to 2 years 421
Growth of Bahraini school children; influencing factors 553
Growth of cultured human skin fibroblasts, effect of sex chromosome aneuploidy 9
Growth of Melanesia and Fijian children in Figi 507
Growth patterns of school children in Bahrain 155
Growth, effects of social class and social mobility 1
Growth, variability in stature 45

Haptoglobin and red enzyme frequencies in the Basque region and Leon 147
Heart-rate variation, age and behaviour in elderly women 265
Height in adolescent growth spurt and childhood nutritional background; an 18-year study of rural Indian boys 289

Height and weight at age of menarche during secular shift in growth of Japanese children; lack of linkage 429
Height, weight and BMI, effects of social class and social mobility 1
Heights and weights of Swedish school children born in 1955 and 1967 397
Historical migration in County Durham 543

LMS method used to measure skewness in NCHS and Dutch national height standards 407

Maternal and socioeconomic factors: Melanesians and Indian Fijians birth dimensions 25
Menarcheal age and postmenarcheal growth in rural Bengladeshi 347
Migration within the island of Korčula, Yugoslavia 483
Mitochondrial malic enzyme: population and biochemical genetics 369
Mitochondrial antigenic structure and enzyme activity in ageing human diploid fibroblasts 259
Morphometric and biochemical traits, age-dependent changes 237
Mountain sickness and physiological stress; intermittent high altitude exposure 15

National height standards; use of LMS method to measure skewness 421

Ok Tedi Health and Nutrition Project: physique of adult in North Fly region, Papua New Guinea 61

Parotid gland enlargement and female reproductive performance in Papua New Guinea highland population 437
Parental height, validity of self-reports; English inner city areas 41
PGM and Gc gene frequences 169
Physiological stress and mountain sickness; intermittent high altitude exposure 15
Physique of adults in North Fly region Papua New Guinea: Ok Tedi Health and Nutrition Project 61
Population and biochemical genetics of human mitochondrial malic enzyme 369
Post-partum amenorrhea and breast feeding in Serere women, Senegal 311
Postmenarcheal growth and menarcheal age in rural Bangladeshi 347
Principal component analysis of shape variables in adults 361

Red cell and haptoglobin gene frequences in the Basque region and Leon 147
Reported parental height validity; English inner city areas 41
Reproductive performance of females and parotid gland enlargment in Papua New Guinea 437

Secular trend in height of primary school children 387
Sex chromosome aneuploidy on growth of cultured human skin fibroblasts 9
Sex-linked influences, a model for study using different classes of cousin pairs 467
Sexual demorphism between human populations: multivariate tests for difference 301
Shape variables in adults, principal component analysis 361
Shoulder abduction range in men and women aged over 65 years 249
Size and shape components of anthropometric differences among the Yanadis 449
Social class and social mobility effects on height, weight and BMI 1
Social mobility and social class effects on height, weight and BMI 1
Socioeconomic and maternal factors: Melanesians and Indian Fijians birth dimensions 25

Taster (P.T.C.) phenotypes; sex correlations and rate of adolescent development 131

Variability in stature growth 45
Variation in heart-rate of elderly women 265

Weight, height and BMI, effects of social class and social mobility 1
Weight-for-height in 10-year-old children 109
Weights and heights of Swedish school children born in 1955 and 1967 397

ANNALS OF HUMAN BIOLOGY, 1989, VOL. 16, NO. 6, 571–573
